

**Changes to the Program****These changes are updated in the web program but not in the pdf or printed versions.**

<b>ID</b>	<b>author</b>	<b>Session Number</b>	<b>Session Title</b>	<b>Title</b>	<b>day</b>	<b>time</b>	<b>notes</b>
<b><u>Additions to the Program</u></b>							
1340	Joseph Heled	64	Phylogenetics, Methods/ Theory II	Building Really Big Trees	Sunday	11:30 AM	new talk
1344	Jesse Weber	137	Genetics of Adaptation	Does heritable immune divergence accompany ecological speciation in threespine stickleback ( <i>Gasterosteus aculeatus</i> )?	Tuesday	11:45 AM	new talk
1343	Bastien Boussau	205	Symposium: Tree of Life	Reconstructing the tree of life while accounting for gene transfer between lineages	Saturday	2:30 PM	new talk
1341	Paulo Célio Alves	137	Genetics of Adaptation	Evolution of coat-color seasonal variation in hares ( <i>Lepus</i> )	Tuesday	11:30 AM	new talk
1342	Edgar Benavides	107	Lightning talk	Museum DNA helps assessing past and present genetic diversity in Galapagos giant tortoises	Monday	9:20 AM	new talk
1346	Joshua Penalba	P3	Late Breaking Posters	Sequence Capture using PCR-generated Probes (SCPP): A cost-effective method of targeted high-throughput sequencing for non-model organisms	Monday	7:00 PM	new poster
<b><u>Changes in Presenters and Moved Presentations</u></b>							
630	Kristjan Niitepold	18	Evolutionary Ecology	Larval dietary restriction alters resource allocation at metamorphosis	Saturday	11:45 AM	Co-author will present
1108	Charles Marshall	15	Macroevolution II	Losing to the Red Queen II: when non-equilibrial processes trump diversity dependence	Saturday	11:30 AM	Co-author will present
983	Zoe Assaf	53	Population Genetics/Genomics Empirical	Recessive mutations interfere with selective sweeps	Sunday	9:45 AM	moved
892	Andrew Martin	P1	Education and Outreach	Cultural Traits as the Focus for Student Demonstration of Evolutionary Analysis Process Skills		7:00 PM	moved
<b><u>Cancellations</u></b>							
988	Zoe Assaf	119	Lightning talk	Recessive mutations slow selective sweeps	Monday	11:45 AM	cancelled
1045	Diego Bilski	107	Lightning talk	A biogeographical perspective on the extent of the subtropics	Monday	9:20 AM	cancelled
1181	Jose Anders	44	Evolution in Response to Anthropogenic Change	Patterns of genetic variation reveal anthropogenic homoploid speciation in the Australian soapberry bug, <i>Leptocoris tagalicus</i>	Saturday	3:30 PM	cancelled

455	Jacob Moorad	126	Life History Studies	The decline of polygamy and resulting shifts in selection for longevity in 19th century Utah	Tuesday	8:45 AM	cancelled
464	Justine Garcia	111	Species Interactions and Coevolution II	Partner Associations within an Environmentally-Acquired Insect-Bacteria Symbiosis	Monday	11:00 AM	cancelled/duplicate
1153	Matt Miller	130	Phylogeography	A tale of two wrens: using multi-locus population genetics to explore the different outcomes of secondary contact in two lowland neotropical birds	Tuesday	9:15 AM	cancelled
1014	Johanna Cannon	92	Systematics and Inferred Phylogenies	Phylogenomics offers insights into hemichordate evolution	Sunday	4:15 PM	cancelled
828	Muhammad Tariq Mahmood	128	Systematics and Inferred Phylogenies	Phylogenetic position of avian nocturnal and diurnal raptors	Tuesday	8:30 AM	cancelled
37	Mike Hague	P1	Population Genetics/Genomics	Exploring the boundaries of genetic variation: A population survey of lizards at the Cima Volcanic Field	Saturday	7:00 PM	cancelled
359	Danielle Drabeck	P1	Species Interactions and Coevolution	The Molecular Basis and Coevolutionary Dynamic of Resistance to Snake Venom in Didelphid Opossums	Saturday	7:00 PM	cancelled
239	Jason Borchert	P2	Population Ecology	The younger games:thermal variation of density dependency	Sunday	7:00 PM	cancelled
1154	Matt Miller	P2	Informatics	Collection citation metrics: quantifying the value of natural history collections to biological discovery	Sunday	7:00 PM	cancelled
1202	Christina Jenkins	P2	Disease Ecology and Evolution	Does an Increase in Ploidy Reduce Infection? A Study with Triploids and Tetraploids in the New Zealand snail <i>Potamopyrgus antipodarum</i>	Sunday	7:00 PM	cancelled
987	Zoe Assaf	P2	Population Genetics/Genomics Theoretical	Recessive mutations interfere with selective sweeps	Sunday	7:00 PM	cancelled
1262	Tristan A. McKnight	P3	EvoDevo	Evolution and Development of Horns in Rhinoceros Beetles	Monday	7:00 PM	cancelled
800	Jemma Rushe	P3	Systematics and Inferred Phylogenies	Phylogenetic history of <i>Lasiopogon</i> robber flies shows a pattern of repeated ecological adaptation in a widespread group of predatory insects	Monday	7:00 PM	cancelled
1258	Noelle Bittner	P3	Genetics of Adaptation	The genetic basis of adaptive coat color variation in rock pocket mice ( <i>Chaetodipus intermedius</i> )	Monday	7:00 PM	cancelled
